

# IceBreak Inspire

Your free web based Query/400 tool

Existing queries can easily be imported into a spreadsheet, or presented in an internet or intranet browser.

It is easy to organize and structure queries in groups, and they can be accessed through an OS/400 web log-on.

Install IceBreak Inspire today!

- Free tool, no obligations
- Easy to install and use
- Free updates
- New functions are added regularly

For development purposes; use IceBreak Inspire in your applications.

The screenshot illustrates the workflow of IceBreak Inspire. It shows three overlapping windows:

- Microsoft Excel - Maple1:** A spreadsheet containing a table of product data. The table has columns for MANUID, PRODDID, PRICE, STOCKCNT, STOCKDATE, and DE SC. The data includes various Olympus and Canon digital camera models.
- Microsoft Internet Explorer:** The IceBreak Inspire web interface. It features a navigation menu on the left with options like 'Demo Queries', 'Sales reports', and 'Statistics'. The main content area displays a table of queries and a 3D pie chart visualizing the data from the Excel spreadsheet.
- Session B - [27 x 132]:** A terminal window showing a 'Display Report' command and its output, which is a text-based version of the product data table.

Minimum requirements: System i5, iSeries or AS/400 running OS/400 V5R1
